

New De Beer Bero Base 500 Series Toners: 523 & 590

We are proud to announce that two new mixing colours, Bero Base Metallic Bright Orange and Bero Base Extra White, have been added to the De Beer Bero Base 500 Series and are available to order today. These new colours are a result of our continued commitment to delivering our customers with the best in colour and coverage.

Bero Base Metallic Bright Orange (9523.L01) expands the red colour spectrum to new heights and offers a better coverage capacity on bright red effect colours.

Bero Base Extra White (9590.L03) is designed for use in popular white color formulas; it brings the coverage of these white colours to a new level. Decreasing the application time on white colours and increasing productivity to generate more throughput in your shop.

Colour formulations are available today with your latest software update. For more information or to order, please contact your Valspar Sales Representative or Valspar Customer Service 1-800-444-2399.

Part Number	Description	Size	Case Quantity
9523.L01	Bero Base Metallic Bright Orange	1 Liter	3
9590.L03	Bero Base Extra White	3.5 Liter	2

Feature Product

Product: De Beer Air Dry Clear 1404

The De Beer Air Dry Clear Coat is a rapid drying clear coat that requires no baking; saving time and energy. Dust free in 10 minutes. Nib sand and buff in 30 minutes.

Easy to spray, with superior flow and leveling the De Beer Air Dry Clear delivers a fantastic appearance and gleaming finish. No flash time necessary between coats and wet-on-wet application.

Valspar Automotive Launches 66-360 Spectrophotometer

A precision color match is now only a click away. This easy to use tool features a color library many times greater than a standard color box to ensure that you can match original vehicle manufacturer colors, even difficult to match colors, and update new formulations regularly. The Smart Formulation Option provides a color match in all types of lighting, resulting in the best color match, less rework and optimized profitability.

The Spectrophotometer is easy to use with its plug and play technology, minimal training requirements, multiple languages and simple calibration. It is precise, simple and smart.

To order, please contact your Valspar Sales Representative or Valspar Customer Service at 1-800-444-2399.

Valspar Automotive Introduces Color Information Maps

The Valspar Color Information Maps offer an easier way to match colors. Available in three different color books; Solid Colors, Single Stage Colors and Base Coat Colors, each chip is sprayed with Valspar Automotive paint to accurately depict the applied finish. Quickly search colors by family, match colors without a code or simply offer your customer a wide variety of color options.

The books are available to be purchased individually. To order, please contact your Valspar Sales Representative or Valspar Customer Service at 1-800-444-2399.

Book 1 - Solid Colors - Applies to single stage or base coat solid colors
Book 2 - Single Stage Colors - Applies to single stage metallics
Book 3 - Base Coat Colors - Applies to metallic base coat colors including effect colors

Now Offering LICR70 & LICR80 in 5 Gallons

We are now offering the LIC Industrial Finish Reducers in the 5 Gallon packaging. These products are available through the Valspar Customer Service Department.

To order, please contact your Valspar Sales Representative or Valspar Customer Service at 1-800-444-2399.

De Beer 9950 Special Handling Instructions

Our De Beer 9950 WaterBase Mixing Color Deep Black was developed with specialized pigments to increase coverage and color match capabilities. Due to the properties of these pigments, additional agitation is required.

To achieve optimal consistency, simply shake the can for 30-35 seconds daily and prior to use. Do not use an automated shaker, or stir with a stick. For further questions, please contact your Valspar Automotive Technical Team at 1-800-845-2500.
